Supersedes:	New document	page 1 of 2

Annex AQ to PD ENEC 303

Intrusion and Hold-up Alarm Systems Detectors covered by EN 50131-4, EN 50131-5-3, EN 50134-5 and EN 50136 series

1 ROUTINE TESTS (100%)

This annex is applicable to communicators covered by EN 50131-4, EN 50131-5-3, EN 50136-1, EN 50136-2-1, EN 50136-2-2, EN 50136-2-3, EN 50136-2-4 and EN 50134-5.

1.1 Visual Inspection

The visual inspection shall check for completeness and mechanical verification against a checklist for the product.

Visual inspection shall take place to ensure at least the correct application of the rating plates and the presence of the instruction leaflet within the packaging.

2 PERIODIC TESTS

Each series/family (same basic construction) shall be subject to a partial repetition of tests according to the standard at least once a year. Such tests have to be based on the main critical test results of the initial type tests.
